## **PIGGERY ENTRANCE BIOSECURITY SIGNAGE (4.1.B)**

On 1 September 2021, new piggery entrance signage requirements were added to  $APIQ\sqrt{2}$  performance indicator 4.1B, following the  $APIQ\sqrt{2}$  Major Review. The new  $APIQ\sqrt{2}$  requirement relating to signage reads: *"Entry to the piggery is controlled with signage that is compliant with jurisdictional regulations at all piggery entrances, including 'Biosecure Area No Entry Unless Authorised' or similar wording, as well as directions for visitors."* 

This following table is a GUIDE ONLY of jurisdictional requirements on a state by state basis. This information was accurate at the time of preparation. Readers should check the latest version of the Acts and regulations in their jurisdiction to confirm current requirements.

Producers can create custom signs that comply with these requirements.

Version 5.2 12/2022 - current as of 27/3/2023.
